Full Stack Developer

I'm a passionate React and React Native developer with 2 years of hands-on experience building web and mobile apps that are both fast and user-friendly. I love turning ideas into smooth, high-performing applications using React.js, React Native, TypeScript, Expo, Redux, and Tailwind CSS. Whether it's crafting a clean UI, optimizing performance, or integrating APIs, I focus on creating great user experiences. I enjoy collaborating with teams, solving problems, and constantly learning new things to build better, smarter applications.

WORK EXPERIENCE

TECHIE NUTPAM | CHENNAI, INDIA | JAN 2022 - PRESENT

- Developed and maintained 30+ web applications using React.js, Next.js, JavaScript, and modern frontend technologies.
- Collaborated with teams to implement features, improve UX, and create responsive, visually appealing interfaces.
- Integrated third-party APIs to enhance functionality and streamline user interactions.
- Optimized applications for performance, SEO, and cross-browser compatibility using React best practices.
- Contributed to mobile app development with React Native, delivering cross-platform solutions for seamless user experiences.

PROJECT EXPERIENCE

BIOETHICS E-PORTFOLIO

- Developed a fast, responsive frontend with React.js and a secure backend using Node.js, ensuring a smooth and intuitive experience for users.
- Designed a MySQL database for efficient data flow and handled authentication and API integrations to create a secure, high-performing platform. Project Link

METAPAD (REACT NATIVE | EXPO)

- Crafted an intuitive and engaging mobile experience using React Native and Expo, making sure the app feels smooth and easy to use. Focused on clean UI, fluid animations, and seamless navigation to keep users engaged.
- Handled state management, API integrations, and responsive design, ensuring everything works perfectly across different devices. Continuously refined the app based on user feedback to make it even better. Project Link

CONVERTSCANTOCAD

- Built a seamless 3D Model system using React.js (frontend) and Node.js with MySQL (backend), ensuring a smooth and secure authentication experience. Focused on clean UI, real-time validation, and API integration for a user-friendly experience.
- Designed and optimized the backend with Node.js and MySQL, handling user authentication, data security, and efficient database queries. Worked on performance improvements to make the app fast, scalable, and reliable. Project Link

PRECISE3DM

- Enhanced user interface for Precise 3DM's web platform using React, improving responsiveness and user experience across devices.
- Optimized data handling and state management with React, ensuring smooth functionality and improved performance for the platform. Project Link

EXPERTISE

- Reactjs
- React Native
- Nextjs
- Nodejs
- Mysql
- Php
- Javascript
- HTML5 & CSS3
- Tailwand CSS

EDUCATION

FULL STACK DEVELOPMENT

School of Techies , Velachery, Chennai-600 042

2022

B.SC COMPUTER SCIENCE

Periyar University, Dharmapuri-636701

2019-2022

SOFT SKILL

- Creativity
- Observation
- Communication
- Analytical Thinking
